

## REPUBLICANS ASSURE ATKINSON

As the result of the conference that Chairman A. G. M. Robertson had with Secretary Atkinson yesterday relative to reaching some conclusion over the disbursement of the \$30,000 appropriated by Congress for certain expenses of a regular session of the legislature, a meeting of the Executive Committee of the Republican Territorial Committee was held at noon today.

The matter was presented to the committee. It was explained that if some assurance could be given Secretary Atkinson that the Republican members of the legislature, who happen to be in the vast majority, would not draw extra pay or mileage during an extra session, the Secretary would disburse the \$30,000 appropriation.

The following resolution was adopted, covering the matter:

Resolved, That it is the sense of this Committee that the Republican members of the Legislature should give such assurance to the Secretary of the Territory that they will not claim or draw any compensation for an extra session called under Section 54 of the Organic Act as may be required to make available the appropriation of \$30,000 for Legislative expenses made by Congress by Act of June 6, 1906.

## JAPANESE AFTER OUR POSSESSIONS

TOKIO, January 11.—The Philippine-Japanese Association has been formed here. The Association is formed for the purpose of developing navigation between Japan and the Philippines, to found a bank and insurance company and start a newspaper in the city of Manila.

## TIDAL WAVE IN EAST INDIES

THE HAGUE, January 11.—News of a destructive tidal wave that swept upon the Dutch East Indies and South Achin has been received here. In Tana 300 persons perished and at Simau the loss of life amounted to forty.

## S. S. PONCE DISABLED

HAMILTON, Bermuda, January 11.—The steamship Ponce was towed in here today disabled.

### SUBMARINE IS SUNK.

CHERBOURG, France, January 11.—The submarine Algerian was sunk today at her moorings. No lives were lost.

### TWENTY BURNED TO DEATH.

SHASBURG, Germany January 11.—Twenty persons have perished in a fire here caused by a vat of celluloid exploding.

### FIRE DAMAGE \$1,500,000.

LANCASTER, Pa., January 11.—A fire at the works of the Moss Company, tobacco manufacturers, did damage to the extent of \$1,500,000.

### SURPRISE TO ALL.

Everyone who lunches for the first time at the Criterion is surprised at the excellence of the lunch for 25c. Come today and be surprised.

A number of the members of the House of Representatives, discussing the ways and means of the coming session, have declared among themselves that \$600 at the least can be saved by doing away with a stenographer in the House, believing that there exists no necessity for such an appointment.

## METHODIST BISHOP CRANSTON COMING

WILL PRESIDE AT THE ANNUAL MEETING OF THE METHODIST CHURCH OF HAWAII INSTEAD OF BISHOP HAMILTON WHO WAS EXPECTED BUT WHO HAS SUFFERED COMPLETE PHYSICAL COLLAPSE DUE TO OVERWORK.

Rev. J. W. Wadman has received word that Bishop Hamilton of the Methodist church who was expected to come here and preside at the annual meeting of the Methodist church of these islands, has suffered a complete physical collapse, due to the tremendous strain he has been under.

Following the earthquake and fire in San Francisco, there was thrust on him the tremendous responsibility of rehabilitating the church. He undertook to raise for this purpose a half a million dollars. He went east to seek aid and has been working very hard ever since. The result has been a collapse which will prevent his coming here as was expected.

Instead of Bishop Hamilton, Bishop Earl Cranston will come. He is expected to leave San Francisco by the Kona on February 5, and arrive here February 11. The annual meeting of the Methodist church will begin on February 12 and will continue for one week. Pastors of all the Methodist churches in the Territory, of all races are expected to be in attendance. This is the second annual gathering of the kind. The Methodist church previous to that time having been simply a district of the California conference. A year ago it was made a separate division and its annual meetings are presided over by a bishop. Bishop Hamilton was here last year.

## TANTALUS ROAD WAS DAMAGED

RECENT RAINS DO CONSIDERABLE DAMAGE ABOUT HONOLULU AND VICINITY.

Considerable damage has been done about the city and vicinity by the recent rains. Tantalus road has suffered more than any other place. From Punchbowl leading up toward the forest lands, there have been a number of washouts. Road Supervisor Johnson has a force of men at work repairing the road, so as to put it into proper condition.

A number of small culverts on the Kaili valley road were washed out. The repairs to the big storm drain at the corner of Kewalo and Wilder avenue have been completed today. A number of gutters in the Makiki section were washed out.

There was also some minor damage done to streets and roads but nothing of material consequence.

Johnson intends to fill in the sunken space Ewa of the retaining wall at the head of the slip mauka of the Hackfeld wharf. He will put a top dressing on the wall and make a foot walk 10 feet in width. At present the wall is a rocky place to travel and pedestrians are compelled to walk around by the road, which involves a slightly longer walk to the Hackfeld wharf.

## HAGLUND TOLD OF THE WEATHER

SAID THAT CONDITIONS WERE RAPIDLY GETTING WORSE WITH THE STALLED JAP STEAMERS.

Captain Haglund the port captain of the Inter-Island Steam Navigation Company, occupied the stand during the entire session this morning in the U. S. District court. He was told of the weather and other conditions on while the Japanese S. S. Chiusa Maru was aground. Haglund corroborated the statements of Captain Macaulay in this regard. There was quite a swell running at the time and the wind was from the south southeast, a condition that militated against the vessel. Haglund stated that in his opinion if the steamers Anehou and Kinau of the libelling company, had not gone to the assistance of the Chiusa Maru when they did, and only the revenue cutter Manning had gone, that the combined efforts of the vessels could not have later floated the Chiusa Maru. He said the current was setting in stronger during the afternoon. The case is on this afternoon.

DEPARTED.  
FROM MAKAWALI: Bk. W. B. Flint for San Francisco with sugar at 10:15 a. m.

### CLOSE TOUCH

with the most prominent exporting mercantile house of Yokohama, together with the large trade he carries on with the plantation stores all over the islands, enable K. Yamamoto to deal in all kinds of Japanese goods at a smaller price than any other Japanese merchant in Honolulu. Hotel street, near Nuuanu.

## ANTI-SALOON EXPERT TO BE BROUGHT HERE

WANTED AS ADVISER AND AID IN THE EFFORT TO SECURE PROPER LIQUOR LEGISLATION.

An Anti-Saloon expert to be here throughout the session of the legislature to watch liquor legislation and be ready to give the benefit of his knowledge of liquor legislation, is one of the plans of the Anti-Saloon League, which will probably be carried out.

The league is now in correspondence with similar organizations on the coast. The object is to get a man who is thoroughly familiar with liquor legislation and the history and effect of liquor legislation in the United States, who can come down here, and as an expert, prescribe so to speak the kind of liquor legislation that is needed here, and then help to get it.

## ERSKINE PHELPS FROM MANILA

The big windjammer Erskine M. Phelps, Captain Graham, he of the automobile, was sighted soon after 10 o'clock this morning moving up from the south. She comes from Manila to load sugar for around the Horn to New York and has made the voyage from the Philippines in the splendid time of 27 days. She will come into the harbor this afternoon.

### FINED FOR CONTEMPT.

William Conrad was asked to pounce an eagle in police court this morning to save the dignity of the bench. He was alleged to have been intoxicated but did not see fit to appear and tell the court what about it, whereupon he was sent for and fined \$10 for contempt.

### NINE MONTHS IN JAIL.

The president of the district bench this morning handed out nine months' imprisonment in the Twile fortress to the Honorable Fujikawa, and for the reason that said Fujikawa had no visible or sufficient means of support, unless a bunch of keys containing many skeleton keys may be construed as the sign of an honest profession.

## ALAMEDA IN STORM'S GRIP

Honolulu looked for the Alameda with the daylight today and expected to hear the announcing whistles before the usual 8 o'clock blasts. The day passed middle life, however, without word of her being sighted and it is presumed that she is delayed by the storm, finding it difficult to make time in such weather as has been reported by shipping from all points of late.

### DO NOT EXPERIMENT WITH CROUP.

When a child shows symptoms of croup there is no time to experiment with new remedies, no matter how highly they may be recommended. There is one preparation that can always be depended upon. It has been in use for many years, and has never been known to fail viz: Chamberlain's Cough Remedy. Give it, and a quick cure is sure to follow. For sale by all dealers. Benson, Smith & Co., agents for Hawaii.

## MUCH INTEREST IS MANIFESTED IN THE MAUNA LOA OUTBREAK

MANY PEOPLE INQUIRE AT THE OFFICE OF THE INTER-ISLAND COMPANY AND OF THE HENRY WATERHOUSE TRUST COMPANY AS TO THE BEST MEANS OF GETTING TO THE SCENE OF ACTIVITY—KINAU'S ARRIVAL AWAITED WITH GREAT INTEREST.

Neither George Lyceus nor the Henry Waterhouse Trust Company received any further messages regarding the outbreak of Mauna Loa this morning.

At the office of the Henry Waterhouse Trust Company there were many inquiries regarding the outbreak by persons who have a more or less definite notion of going to see it. Most of them were inclined to await the arrival of the Kinau tomorrow with more detailed information regarding the outbreak and the prospect of it continuing long enough for visitors to get a chance at it.

There were some inquiries about the outbreak and the means of getting to it from the Kona side by people who had some notion of taking the Mauna Loa at noon today. But the information regarding the outbreak seemed to be too indefinite, or the time to get ready too short, for, as far as could be learned, no one went by the Mauna Loa for the purpose of making the ascent to the scene of the outbreak. It is thought by men well acquainted with the region, that if the outbreak is in Mokuaweewee, or anywhere else very near the summit, the best way to get to it is from the Kona side.

A message from the Volcano House was as follows:

Mokuaweewee burst out last night, about eleven-thirty, lighting up the whole heavens. Fountains by thou-

sands plainly visible as they spout fire. Glow must have been seen for miles.

A message from Hilo at 4 o'clock yesterday afternoon was as follows:

Lava is flowing from Mokuaweewee toward South Kona. It is reported from the Volcano House this a. m. that there are apparently two outbreaks, one on the Kona side of Kapapala ranch. Over thirty slight earthquakes have occurred here (Hilo) since midnight. Early this morning the eruption had subsided but smoke is still visible at the summit.

At the time of the outbreak of 1903 there were reports of lava flowing from various points and in various directions. This was due to the fact that the refraction and reflection of the light as seen from various points and great distances is very deceptive and confusing. It was more than a week after the first reports in 1903 before it was definitely ascertained that there was but one outbreak and that was in Mokuaweewee.

So in the present instance until some party has actually visited the outbreak it will not be definitely known just where it is or whether there is more than one.

Mokuaweewee is upwards of 12,000 feet above sea-level, and is miles from any habitation, and is only reached with difficulty over regions of lava and volcanic formation where there is no semblance of a trail.

## Distillery Opening Postponed

KONA PEOPLE FAILED TO SEND PROPER DRAWINGS SO COLLECTOR HAS TO DELAY PLANT.

The kokolhao distillery can not be installed for some time. It had been planned that Collector of Internal Revenue Chamberlain and possibly one of his deputies would go to Napoosoo today to install the distillery but instead, it was necessary to dispatch M. H. Webb as a draftsman to draw the plans of the distillery.

Under the law the collector of internal revenue must be provided with plans of a proposed distillery showing every detail of pipe and every connection and faucet on the pipes. The sketch of plans that were forwarded by the distillery people to Chamberlain failed to comply with these and many other important details required by law. In fact the drawings looked as if they were the work of some school boy.

Chamberlain accordingly sent Webb to Hawaii by the Mauna Loa today with instructions to prepare the plans according to law. After the plans are approved then the distillery will be installed by the Federal officials. Fully ten days or more are now likely to elapse before kokolhao is turned out by the Kona concern.

## Sheriff Appoints Ladies

MISS ROSE DAVISON HUMANE OFFICER AND MISS JULIA BUSH STENOGRAPHER.

Sheriff Iaukea has said that he will have no politics in the police department and he is carrying out this promise in at least two appointments to positions in the department for he has named ladies for two offices.

Today the sheriff issued a commission to Miss Rose Davison as humane officer, to look after the interests of all beasts of burden and all dumb brutes which make the lot of man lighter by their toil and friendship. Miss Davison was presented with the badge of a special police officer and was also armed with her commission. The humane officer will within a day or two be established in the police station with a little office of her own where she may be seen at certain times by those who wish to lodge complaints against folks who do not appreciate animals and are careless in their treatment of them. Miss Davison now pos-
